

The FCC should not implement any proposal that would lesson Indiana's Telephone Privacy law protections. This law has afforded me the opportunity to concentrate on my studies without unwanted interruptions. Indiana's Telephone Privacy law has been 100% effective in my household. I use to receive four to five calls daily, however, since this law has been in effect I have only received "one" call. Once I identified that I was on the Attorney General's Privacy list there were no more calls. This law has been a blessing and I ask that you not take away my right to privacy.
